

# Fly Like The Wind

Imperia

I don't know if you believe in destiny?  
You don't know if faith is on your side  
No castle as strong as yourself  
No barrier too high  
Cause you can fly

Fly - fly like the wind, fly through the sky, touch the moon

Do you know, the world is in your hands?  
Do you know, no one can withstand?

I don't know where I have to turn to  
When time is standing still  
But remember it will come better days  
I do believe in destiny, believe in faith.

Fly - fly like the wind, fly through the sky, touch the moon

Do you know, the world is in your hands?  
Do you know, no one can withstand?

The breeze of the sea, feels like freedom  
Stars all around me  
Standing on the edge

Fly - fly like the wind, fly through the sky, touch the moon

Do you know, the world is in your hands?  
Do you know, no one can withstand?
