

# My Sleeping Angel

Imperia

She looks like a gift from God  
With her big blue eyes  
Deeper than the ocean  
With the colour of the skies

Her face is just as peaceful  
As a summerbreeze at night  
And I hope you dream of happiness  
As you sleep deep and tight

I love you more than life  
Little Angelchild of mine  
I will always be by your side  
To make sure your eyes still shine

I'll give comfort when you cry  
I would give my life for yours  
You should know that everything I do  
I'm doing just for you

My little Angel  
Who lay here  
In my arms

My little Angel  
I hope you will  
Dream in the light of your halo

She looks like a gift from God  
With her tiny hands  
That reach out of the world  
So full of joy and innocence

She takes life as it comes  
She's full of trust and knows no fear  
And a bit of that comes back to me  
When I can hold her near

So if I only could  
I'd freeze this moment as it is  
And I'd make it yours so you could live  
In there in endless bliss

Where life would never find you  
With all the trouble and the pain  
This secret place would always give  
Shelter from the rain

My little Angel  
Who lay here  
In my arms

My little Angel  
I hope you will  
Dream in the light of your halo
