

Touch Of Your Hand

Imperia

Learning how to smile again*
To free my heart
Knowing I can face the things
That used to seem so hard

Learning how to breathe again
I realize
There is so much more to learn
That leads me back to life

There is so much more to feel
The long forgotten part of me
I hear it calling now

The touch of your hand
Carries me away
To a place where only you can enter

Learning how to smile again
To free my heart
Knowing I can face the things
That used to seem so hard

Learning how to shine again
To feel I fly
Knowing after all the rain
There comes a clear blue sky

There is so much more to feel
The long forgotten part of me
I hear it calling now

The touch of your hand
Carries me away
To a place where only you can enter

To feel I fly
Into the clear blue sky...
