

## Trap Them And Kill Them

Impetigo

Stench of death, the worm eaten flesh  
The wicked fires burn, I'm the last survivor left  
Trapped in this cage, locked up with the rats  
The vermin and filth, how long can it last?  
The cannibals dance and dig my grave  
For me all hope is lost  
An amazonian camping trip  
I prepare to pay the cost  
They killed my fellow travelers,  
Mutilated one by one  
Decapitated my lovely wife  
Then raped her body just for fun!  
In this wet hold I wait my time is yet to come  
I wait the hours crawl by... why am I the only one?  
The hour of doom approaches near, I clutch my brain in fear  
They crawl slowly to me... my god, I cannot see!!!  
Motionless, chained fast by fear  
For me all hope is lost  
I ventured where I dare not tread  
And now I pay the cost!  
My place is not here, yet here I die  
And peace I have not found...  
My head is severed at the neck,  
It falls silently to the ground...
