

## Death Wish Scar

**Impious**

All these years I did not know  
But now I know and do not fear  
Hold the razor blade to my skin  
And I feel alive as it cuts deep in

A burning soul  
Marked with a death wish scar

No more of what I've been before  
I've realized what I could not see  
I cut myself, but feel no pain  
'Cause I remember how it was to be insane

A burning soul  
Marked with a death wish scar  
Straying for another one  
Never to erase, never be the same  
Death wish scar

A burning soul  
Marked with a death wish scar  
Straying for another one  
Never to erase, never be the same  
Death wish scar

Night and day I question how  
How deep I could cut without descending  
Still the only pain is the mental suffering  
I feel in my head

A burning soul  
Marked with a death wish scar  
Straying for another one  
Never to erase, never be the same  
Death wish scar
