

# The Deathsquad

Impious

Raving painful endless night  
All alone on deadly ground  
Fire starts ruling the battlefield  
Violent flames of hate  
Demolition  
Devastation

"Standing proud we won't surrender"  
Troops of doom defined  
"There's no way we'll raise the white flag"  
Loyalty denied

Hatred strikes with battery  
Evolution of what will be  
Searching and killing and serving well  
Soldiers born to fight  
Demolition  
Desolation

"Standing proud we won't surrender"  
Troops of doom defined  
"There's no way we'll raise the white flag"  
Loyalty denied  
Loyalty has died  
Oh, listen to the noise  
Sweet sound from the bullet race  
Back to the front, to face the end  
Left alone, to fail again  
Left alone, to fight death

Marching on with fear  
To no man's land  
The end is near  
Helpless blind men  
Obeying the war  
Unaware of their loss  
They're marching alone

Abort mission!  
Evacuate!  
Roaring bombs keep falling down  
Left all alone on this deadly ground  
Praise the squad of death  
Demolition  
Desecration

"Standing proud we won't surrender"  
Troops of doom defined  
"There's no way we'll raise the white flag"  
Loyalty denied  
Loyalty has died
