

## Dead End

## In Flames

Save all your prayers  
I think we lost today  
There's no morning after  
And no one's around to blame

I'm not afraid to bleed  
But I won't do it for you  
We'll start among hypocrites  
The melody of our time

So say goodbye to the world  
We are the dead can't walk the earth  
Scream your lungs out  
Wait for laughter  
You don't have to wait forever  
It's the next disaster!

What decides when you've lost the war  
When the first man falls?  
Or when they erase it all?

We're too numb to feel  
The downfall starts here  
Hold your breath and swim  
Swallowed my life's tear

In times of make believe  
No one really seems to care  
Maybe I should care less  
'Cause I will die too

So say goodbye to the world  
We are the dead can't walk the earth  
Scream your lungs out  
Wait for laughter  
You don't have to wait forever  
It's the next disaster!

What will it take for us to realize  
The more we provoke  
Winter will come twice

Save all your prayers  
I think we lost today  
There's no morning after  
And no one's around to blame

Scream you lungs out  
Wait for laughter  
You don't have to wait for ever  
Here's the next disaster! (2x)
