

## Here Until Forever

In Flames

I can't wait to hear your voice again  
I am far from lonely but without you I'm a mess  
I close my eyes and drift away  
And I'm wondering what you're doing now

When I look at you I see me  
We will always be part of history  
When I look at you I see me  
Forever I will always be

Mind and soul we are the same  
A hand on your heart, you know I am there  
You are my lighthouse in the dark  
I can see you from a thousand miles

Forever I will always be

When I look at you I see me  
We will always be part of history  
When I look at you I see me  
Forever I will always be

I hope you feel [?]  
I am alive in all you touch  
Close my eyes and drift away  
Wondering what you're doing know  
(Wondering what you're doing right now)

When I look at you I see me  
We will always be part of history  
When I look at you I see me (I see me)

When I look at you I see me  
We will always be part of history  
When I look at you I see me  
Forever I will always be
