

Jester Script Transfigured

In Flames

Cre-age-aeon
new beginning held in infinite vacuum
Biotronic test-world free of inscription
devoid of the echoes of man
noble cyborg savage

In the cold ceremonial perfection
more radiant than the sum of suns
with each and every attribute
of animal machine and man

Dystopia ElectroHeart
the grotesque and the linear
took one final giant blow
into the Ram of what is us

In the cold ceremonial perfection
more radiant than the sum of suns
with each and every attribute
of animal machine and man

Installing awaiting the restoration of unsequenced chaos

We've only seen the outlines of the beginning
and this core the slowly moving raptor
will make the very notion of Hell
seem celestial in comparison

In the cold ceremonial perfection
more radiant than the sum of suns
with each and every attribute
of animal machine and man

Installing awaiting the restoration of unsequenced chaos
