

# Superhero of the Computer Rage

In Flames

I am the past, Future  
I've been chosen  
You think it's over  
But I'm ready to go  
I am what you fear  
I've been chosen  
The world as you know it just died  
It's the end of all time

I am a surprise  
Even to myself I'm a genius  
Superhero of the computer rage  
In plastic I'll bury  
I am what you fear  
I've been chosen  
The world as you know it just died  
It's the end of all time

Everything you say is denied  
I'll be the devil on this ride

Dark clouds in your heaven  
Your end has only begun  
You can scream but there's no rescue  
I promise I'll make you sure you that die in time

I am the maggot  
In your infected life  
No matter how hard you try  
I'll leave without a scar  
I am a legend  
In your infotainment life  
It's when I say "it's over"  
It's you who's been chosen

Everything you say is denied  
I'll be the devil on this ride

Dark clouds in your heaven  
Your end has only begun  
You can scream but there's no rescue  
I promise I'll make you sure that you die in time

Everything you say is denied  
I'll be the devil on this ride

Dark clouds in your heaven  
Your end has only begun  
You can scream but there's no rescue  
I promise I'll make you sure that you

Dark clouds in your heaven  
Your end has only begun  
You can scream but there's no rescue  
I promise I'll make you sure that you're dead
