

The End

In Flames

I got a new kind of fear
Something you dont want to view
There's this path that I can see
It leads straight to misery

We can't undo what we have done
Just face what's up ahead
We fight and we stumble
The fuse is lit, you better run now

I can't tell you what to do
This crossroad is your own
But I know what we'll become
We'll be outlaws on the run

Do you think about the end?
The words you say with your last breath
And the emptiness in space
Do you think about the end?
That slow last breath of air
The words you say with your last breath
And the emptiness in space

What if I say to you
Let's leave this earth for a while
A perspective from the hollow
And the wheel we can't control

I can't tell you what to do
This crossroad is your own
But I know what we'll become
We'll be outlaws on the run

Do you think about the end?
The words you say with your last breath
And the emptiness in space
Do you think about the end?
That slow last breath of air
The words you say with your last breath
And the emptiness in space (3x)

When we were young
Was this the dream we had?
We are celebrating nothing
We need to find our way back

I can't tell you what to do
This crossroad is your own
But I know what we'll become
We'll be outlaws on the run

Do you think about the end?
The words you say with your last breath
And the emptiness in space
Do you think about the end?
That slow last breath of air
The words you say with your last breath

And the emptiness in space
