

# Us Against the World

In Flames

I wish you would've listened  
Can you hear me now?

You're in control  
The thin red line  
A change in life  
The pride that cries  
The lesson we should learn from lies  
Dance across the sky  
Conqueror of pain  
The abandoned reign  
You should be lord amongst the flies

I wish you would've listened  
Can you hear me now?  
Tell me what to do  
I'm right beside you  
It's us against the world  
This can only end one way  
Let's seize the day  
It's us against the world

Oh, through the cracks  
A new voice appears  
Dividing the clouds  
The horizon, the hope  
From the most lonesome nights

I wish you would've listened  
Can you hear me now?  
Tell me what to do  
I'm right beside you  
It's us against the world  
This can only end one way  
Let's seize the day  
It's us against the world
