

Every Night

In-Grid

Every night, every night
Every night, every night you are looking good for me
Give me time, give me time to be what I need to be
Let me go, let me go, I just wanna free my mind
Don't you know too much love could make you blind?

Every night, every night you are looking good for me
Give me time, give me time to be what I need to be
Let me go, let me go, I just wanna free my mind
Don't you know too much love could make you blind?

Every night, every night you are looking good for me
Give me time, give me time to be what I need to be
Let me go, let me go, I just wanna free my mind
Don't you know too much love could make you blind?

Every night, every night I will show you part of me
Every dream, every life like a secret of the sea
Let me flow, let me flow to the part I move your heart
There was glow like a glitter of the star

Every night, every night I will show you part of me
Every dream, every life like a secret of the sea
Let me flow, let me flow to the part I move your heart
There was glow like a glitter of the star

Every night, every night I will show you part of me
Every dream, every life like a secret of the sea
Let me flow, let me flow to the part I move your heart
There was glow like a glitter of the star

And when you come to me
You'll touch the flowers of harmony
So run to me
You'll see the power of fantasy
And when you come to me
You'll touch the flowers of harmony
So run to me
You'll see the power of fantasy
And when you come to me
You'll touch the flowers of harmony
So run to me
You'll see the power of fantasy
And when you come to me
You'll touch the flowers of harmony
So run to me
You'll see the power of fantasy

Every night, every night you are looking good for me
Give me time, give me time to be what I need to be
Let me go, let me go, I just wanna free my mind
Don't you know too much love could make you blind?

Every night, every night you are looking good for me
Give me time, give me time to be what I need to be
Let me go, let me go, I just wanna free my mind
Don't you know too much love could make you blind?
