

You Kissed Me

In-Grid

Uh la la la la la la
Uh la la la la la la la

You said another time in the dark would be -
So dreamy
Then let me ride into your arms
And then you kissed me
You lead me into my eyes
And then you told me
That you for ever desire
To love me sweetly, dearly
Love me and only me

Uh la la la la la la
And then you kissed me
Uh la la la la la la la
And then you kissed me

You said between us there is a spark
Without me you're incomplete
To treat the world by my side
Is something no one could beat
And then you kissed me
You took my hand in your hand
And then you told me
You'd be for ever my man
To love me sweetly, dearly
Love me and only me

Uh la la la la la la
And then you kissed me
Uh la la la la la la la
And then you kissed me
Uh la la la la la la
And then you kissed me
Uh la la la la la la la

And then you kissed, kissed, kissed, kissed me
And then you kissed me
You said another time in the dark would be -
So dreamy
Then let me ride into your arms

Uh la la la la la la
Uh la la la la la la la
And then you kissed me
Uh la la la la la la
Uh la la la la la la la
And then you kissed me
Uh la la la la la la
Uh la la la la la la la
Uh la la la la la la
Kissed me
Uh la la la la la la la
