

Release (The Moon)

In Hearts Wake

The cure kicks in, this is medicine. I'm not going home tonight
. The
wolves are waking up from sleep, there are monsters in my head.
I don't
remember where we were, so pick me right up off the pavement. I
don't
remember where we were, so pick me right up off the sidewalk. L
et me rest
when the moon descends. let me rest in the valleys overhead. It
's in my
blood again.
