

## Difference Between

### In My Eyes

It can't be said in one word  
There's no simple answer  
So don't tell me that you  
That you have it all figured out  
Because I'll always be searching...for the truth  
The difference between us...is that I care  
So you have your answers now  
And you feel they're better than mine  
You look down on us all,  
Afraid to let your insecurity show  
But I'll always be searching...for the truth  
The difference between us...is that I care  
I fucking care!  
In every face I see  
A reflection of the real me  
I won't waste my time judging anyone  
I'm sorry I choose to get things done!
