

Difference Between

In My Eyes

It can't be said in one word
There's no simple answer
So don't tell me that you
That you have it all figured out
Because I'll always be searching...for the truth
The difference between us...is that I care
So you have your answers now
And you feel they're better than mine
You look down on us all,
Afraid to let your insecurity show
But I'll always be searching...for the truth
The difference between us...is that I care
I fucking care!
In every face I see
A reflection of the real me
I won't waste my time judging anyone
I'm sorry I choose to get things done!
