Faceless Mistress

At the center of the graveyard In the middle of the night A woman dressed in white Is closing up in sight Demon eyes and sharpened nails Speeding through the night With deadlike eyes And the speed of light

Nothing but death can stop them tonight In vicious delight Nothing but blood can still their thirst Killing in the night

Twisted beauty without face Through the ancient maze I could see her face Beyond the, human race In the sign of the pentagram Now the lot was cast I could see my past In damnation vast

With fire and death in eyes See strikes out high Into the dark and flickering sky Sha has all forces That hides in the night Devours the bringer of eternal light In Solitude
