

# Sleepless

In Strict Confidence

Crawling beneath my surface  
Crumbling down my purpose  
Stroking my skin you start to  
Control me

Hearts and minds growing equal  
Starting to dream for a short spell  
You're laying next to me  
And I take a deep breeze...

Sleepless - keeping me up all night  
Weakness - so strange but so close by my side  
Sleepless - keeping me up all night  
Needless - to say what I feel

I can feel your breath on my skin  
And even when you sleep I hear your voice  
All night long I listen to your heartbeat

Sleepless - keeping me up all night  
Needless to say what I feel  
Sleepless - keeping me up all night  
Weakness - so strange but so close by my side

Sleepless - keeping me up all night  
Needless - to say what I feel
