Deliver hate Deliver pain I become insane Me, my mind and brain

Look at me Look at me He offered violence to me Offered violence to me I sweat, I blead Is this what we need

The nightmare of your anger kills My dreams, destroys my hopes

Is this what we need Is this what we hate Fearing, praying Fealing and slaying

Breakdown To deadlock What can you see? No extenuation To set me free

Look at me Look at me He offered violence to me Offered violence to me I sweat, I blead Is this what we need

Is this what we need Is this what we hate Fearing, praying Fealing and slaying
