

The Truth Inside Of Me

In Strict Confidence

Feel the things I do
I transfer my dreams to you
A journey through your mind
Logical explanations hard to find
Develop your own identity
To get back into reality
Feel your dreams come true
I will become a part of you

I wish you could get
The false of hate and regret
I wish you could see
The truth inside of me
(The truth inside of me)
(The truth inside of me)

I wish you could get
The false of hate and regret
I wish you could see
(I wish you could see)
The truth inside of me
(The truth inside of me)
(The truth inside of me)

Remember all the things you did
More strange feelings hard to hit
Frightening memories of a kind
Another journey through your mind

Can't you hold my hands
Become much more like friends
I open up my arms for you
Just a tiny small thing to do

I wish you could get
The false of hate and regret
I wish you could see
The truth inside of me
(The truth inside of me)
(The truth inside of me)

I wish you could get
The false of hate and regret
I wish you could see
The truth inside of me
(The truth inside of me)
(The truth inside of me)
