

## Wintermoon

In Strict Confidence

Long ago  
the book of life has planned  
to destroy us  
lovers in the end

From above  
bleeding liquid love  
healing all my pain  
in a warming rain

Wintermoon  
what secrets do you hide?  
is my fate  
a servant of your light?

Oh wintermoon  
a misty, silver haze  
will I ever  
understand your ways?

And we drown  
as we're sinking down  
in a velvet sea  
invisible reality

From above  
bleeding liquid love  
healing all my pain  
in a warming rain

Wintermoon  
what secrets do you hide?  
is my fate  
a servant of your light?

Oh wintermoon  
a misty, silver haze  
will I ever  
understand your ways?
