

Burn

In This Moment

I feel this is the beginning
The beginning through the end
There's nothing left to fear now
So watch me close as once again you

Burn me alive
Set me on fire
And watch me die
Burn me alive
Watch me resurrect
Right before your eyes

There's no reason to cry now
There's nothing to forgive
This suffering's my blessing
The death of sin is how I live so...

Burn me alive
Set me on fire
And watch me die
Burn me alive
Watch me resurrect
Right before your eyes

Set me on fire
And watch me burn
Set me on fire
And watch me

Burn me alive
Set me on fire
And watch me die
Burn me alive
Watch me resurrect
Right before your eyes
