

## Circles

### In This Moment

Black birds swarming  
Letting me know I am saved  
Shadows dancing  
Freeing me from yesterdays

Will I be saved, these voices are killing me  
Will I make it through the brink of sanity

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles

Halo's glowing, showing me where I can turn  
Angels falling, somehow I know I am loved

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles

I know the skies will save me  
I know

As we go in circles  
I am fading now  
As we go in circles
