Forever

In This Moment

My hearts gone He no longer lies by my side He left at dawn And once I lie alone

Still endless days and nights I wait for you Cause deep inside this flame I know it's true

Forever starts today Forever we will be Forever's every day Forever faithfully

It's been three weeks (You know I had to leave) Your voice is all I have to hold I lie here alone (I'd be there if I could) Awaiting for my loves return

Still endless days and nights I wait for you Cause deep inside this flame I know it's true

Forever starts today Forever we will be Forever's every day Forever faithfully

And through it all No matter It all comes down to you

Forever starts today Forever we will be Forever's every day Forever faithfully

Forever I will be
