

# Half God Half Devil

In This Moment

You look at me like I'm a revelation  
You wanna know if I can bring salvation  
You saw a sinner, saw a saint inside of me  
You wanna know if I'm a friend or an enemy

I waged war in a fiery blaze  
I found peace in a purple haze  
My angels and my demons  
They don't know their place  
Ready or not, they're gonna come out and play

I can be your heavenly or I can be your hell  
I can say a prayer for you or I can cast a spell  
I push you to the darkness just to pull you to the light  
Cause I can take away your breath or I can bring you back to life  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil

I won't pretend that I resist temptation  
I think it's funny when you preach damnation  
I've been to hell and back and now it's just a part of me  
Without the darkness there'd be no light in me

I waged war in a fiery blaze  
I found peace in a purple haze  
My angels and my demons  
They don't know their place  
Ready or not, they're gonna come out and play

I can be your heavenly or I can be your hell  
I can say a prayer for you or I can cast a spell  
I push you to the darkness just to pull you to the light  
Cause I can take away your breath or I can bring you back to life  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil

I can be your heavenly or I can be your hell  
I can say a prayer for you or I can cast a spell  
I push you to the darkness just to pull you to the light  
Cause I can take away your breath or I can bring you back to life  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil  
Half God, half Devil
