Sempiternal Pandemonium

Incantation

Seraphim immersed in scorn
Perceptions decrepit, eclipses blind faith
Sagacity with misery itself entwines
And the roots of blasphemous deception stem from their minds

Indulging in temptation and sin, they were cast down Into regions of sorrow, the deep tract of Hell

Transformed into devils, for they would not revere Beguiled, curse their miserable fall

The liberty of Perdition Spiritual descantification Inverted redemption Sempiternal Pandemonium

Thrown into the utter deep darkness of Chaos Their baleful eyes cast contempt upon Heaven

Eternal light now immortal dark Rise again hierarchy of imfamy, your black wings ascend the ski es.
