

Chase The Clouds Away

Incognito

On the bluesiest of days
Time is being wished away
I close my eyes and think of you
Suddenly your light comes through
Time doesn't matter anymore
Livin's like a sweet love song
There's promise in the things I do
And it all seems to lead to you
Away

Chase the clouds away
Chase the clouds away
Chase the clouds away
If you stumble on the way
I'll be there to comfort you
To pick you up when you are down
any clouds away
You believe I'm right for you
You know that my aim is true
No matter what the world will do
The two of us will see it through
Away

Chase the clouds away
Chase the clouds away
Chase the clouds away
Away

Chase the clouds away
Chase the clouds away
Chase the clouds away
