

I Love What You Do For Me

Incognito

Smile, like a happy child
Feelin' safe in your embrace
Shine, sunshine
Kiss you warmly on your face
This is the place where I am free
There is no where else I'd rather be

Than here in your arms
Hypnotised by your charms
Every touch means so much
Boy, you blow my mind
I love what you do for me

(I love what you do, I love what you do)
What you do for me, baby

Close your eyes
And I'll creep into your dreams
Through your mind, weave a secret on your soul
All that you dream, I'm dreamin' too
No one else could take the place of you

(I want to be)

I love what you do for me
Close to you's where I want to be
Baby, baby, baby, baby (Oh)

[Chorus until fade]
