

I Remember A Time

Incognito

Sitting here up on the hill
Looking out over the distant sea
I wonder how the winding roads that brought me here
Is simply gone and disappeared
Have been caught up in a selfish game
Now I see my rise and fall
I remember a time
I could see forever
I remember a time
When I held it on together
Is it me who's rushing by
Or it's time just standing still
Would someone please reach out and help me find
Pieces of my shallow dreams
Need for shelter of the trees
Trying to find some comfort
From the madness of the new day sound
I've got to stop these thoughts
That are rolling through my head
For time...? out into tears
I came out here just to get away
Only to see my rise and fall
I remember a time
I could see forever
I remember a time
When I held it on together
Is it me who's rushing by
Or it's time just standing still
Would someone please reach out and help me find
Pieces of my shallow dreams
