It Ain't Easy

Incognito

We can walk for miles
We can talk for days
Learn about each other always

And though we walk for miles
And we talk for days
Sometimes we let pride get in our way

And for a while something is broken and missing
And I can't tell what's goin' on in your mind

It ain't easy
Getting it right
It ain't easy
Trying to read the signs
It ain't easy
Trying to work out what's going on in your mind

And though we live and learn
Love is give and take
We fall into confusion some days

Where there's fear and need
We keep it all inside
Sometimes we let pride get in our way

And for a while something is broken and missing
And I can't tell what's goin' on in your mind

It ain't easy
Getting it right
It ain't easy
Trying to read the signs
It ain't easy
Trying to work out what's going on in your mind
