

Living Against The River

Incognito

In the early morning light, you step into the cold
Your curses freeze mid air, the bus is late
You've got to get to work on time, your job is on the line
Soon you'll start again, the same routine
Deep inside your mind
The dreamers dream you'll find
As the day is long, it keeps you moving on
Trying to stay ahead as best you can
Sweep away the notion of a revolution
Do it for yourself
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
When you're living against the river
Do what you do, what you do
As the light begins to fade
And you're heading back for home
Your head is hanging low
You're feeling blue
From the corner of your eyes
Under neon lights you see
The old man in the snow
With worn out shoes
Sweep away the notion of a revolution
Do it for yourself
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
When you're living against the river
Do what you do, what you do
Sweep away the notion of a revolution
Do it for yourself
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
When you're living against the river
Do what you do, what you do
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
When you're living against the river
Do what you do, what you do
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
When you're living against the river
There's no stoppin'
Living against the river
Do what you do, what you do
Got to keep pushing
