

# Living Against The River

Incognito

In the early morning light, you step into the cold  
Your curses freeze mid air, the bus is late  
You've got to get to work on time, your job is on the line  
Soon you'll start again, the same routine  
Deep inside your mind  
The dreamers dream you'll find  
As the day is long, it keeps you moving on  
Trying to stay ahead as best you can  
Sweep away the notion of a revolution  
Do it for yourself  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you do  
As the light begins to fade  
And you're heading back for home  
Your head is hanging low  
You're feeling blue  
From the corner of your eyes  
Under neon lights you see  
The old man in the snow  
With worn out shoes  
Sweep away the notion of a revolution  
Do it for yourself  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you do  
Sweep away the notion of a revolution  
Do it for yourself  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you do  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
Do what you do, what you do  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing  
When you're living against the river  
There's no stoppin'  
Living against the river  
Do what you do, what you do  
Got to keep pushing
