

# The Song

Incognito

Doesn't it just seem unfair, sometimes what you thought was the  
re  
Turns into something new  
In life's ever-changing scheme, I'm your ever-constant thing  
And you can believe that I'll always love you  
No matter what we do or say, world's gonna turn around anyway  
And autumn leaves will turn to brown  
In life's little ups and downs, when so-  
called friends just can't be found  
You can depend on me when I say  
Remember way back in the day, I would sing and you would play  
We didn't have a penny to our names  
Oh I would give back everything to have that feeling  
When we were the song and that was everything  
We're still connected, unaffected by the hands of time  
Oh you can play and I will sing, we can weather anything  
Bring it on, bring it on
