

# The Winter Of My Springs

Incognito

Something 'bout April that makes me come alive  
May have been the winter that made my heart so still  
It must have been, must have been  
What wakens us all to wonder I don't really know  
But the best days of my life are the ones I spent with you  
So continue to surprise me  
Baby, I'll do the same for you  
No, I won't question why it feels so good  
I'll let the mystery be  
As long as it's you  
As long as it's you  
Anytime, anywhere, I don't care  
Just as long as it's you  
Thank you for your understanding  
'Cause I know my love can be so demanding  
(I know that I can)  
Yes, I know that it means so much to you  
Baby, when I treat you right and I'm holding you tight  
Tears of joy come to your eyes like stars about to fall  
Continue to still want me the way I still want you  
I won't question why it feels so good  
I'll let the mystery be
