

# This Thing Called Love

Incognito

Here we are  
Trying to find a meaning for it all  
As time keeps slipping away  
We take our place in the roles like dominoes  
Hoping we won't be the ones to fall

Is it so hard to see that none of us are free  
Until we all understand ,  
That this fate can belong to us all

Have we learn  
That the answer is not the war  
With the children dying by the... score oh  
Educate and share the wealth with every nation  
We owe it to ourselves

But is it so hard to see that none of us are free  
Until we all understand that we all have a piece of the  
truth oh

Is it so hard to see so hard to see  
That none of us are free  
Until we all understand  
That is more than a word  
"This thing called love"
