

# Time Has Come

Incognito

All things have meanin`  
If we take the time, then we will see  
Smoke means there`s a fire  
So we live and learn to understand  
Recognizing the danger  
(and) Throwin' out a lifeline if we`re able  
Gather inspiration  
Together in a harvest of the free

Get up, `cos the time has come  
You`d better believe, that it will be done  
You can`t make pretend it`s and illusion  
Get up, `cos the time has come  
You better believe, that it will be done  
The reason bein` life is not a dream

We`re all witness  
To the politics, of life and survival  
New day is comin`  
Every woman, every man will be as one  
Can`t stop tryin` like a mother  
To give her child a better life if she`s able  
Keep on fightin`  
Believin` every word to be a song of freedom

[Chorus]
