

## Too Far Gone

Incognito

He wanted to believe that the  
Field was his to play  
Say's he's happy that she's gone away  
Any fool can tell she's here to stay  
From his mind she would never stray

He's trying to hide it  
But inside the pain can't be denied  
I guess he's too far gone

No he's spendin' all his time tryin'  
To tell the world he's free  
Depp inside he know he'll never be  
And now it seems that he's lost the key  
He's like a raft driftin' out at sea

He's tryin' to to fake it  
But the sadness is all that he can feel  
I guess that he's too far gone

He cannot see that as he talks  
He's takin' a road that is goin' nowhere  
There's no tellin' hime, he's too far gone

He's walkin' down the street lookin' sure of himself today  
He's never short of things to say  
In his mind he knows he's lost his way  
It's the proce he has to pay

Gone too far  
Too far gone  
Gone too far  
Too far gone
