He wanted to believe that the Field was his to play Say's he's happy that she's gone away Any fool can tell she's here to stay From his mind she would never stray

He`s trying to hide it
But inside the pain can`t be denied
I guess he`s too far gone

No he's spendin' all his time tryin'
To tell the world he's free
Depp inside he know he'll never be
And now it seems that he's lost the key
He's like a raft driftin' out at sea

He`s tryin` to to fake it
But the sadness is all that he can feel
I guess that he`s too far gone

He cannot see that as he talks
He`s takin` a road that is goin` nowhere
There`s no tellin` hime, he`s too far gone

He`s walkin` down the street lookin` sure of himself today He`s never short of things to say In his mind he knows he`s lost his way It`s the proce he has to pay

Gone too far Too far gone Gone too far Too far gone
