

When Words Are Just Words

Incognito

I would be a liar if I said I've never hurt anyone but myself
And it would be unfair if I were to fix the blame on
Everyone but myself
We took the time to talk it over, and made plans about the future
You said for you there is no other
You loved the way we are together
Stop living in a lie
What's the use in telling me you care,
When words are just words
And there's no proof of it
What's the use in saying you'll be there,
When words are just words
And this heart is an empty place
You're gone without a trace
It would be absurd if I believed the promise would never die
After all we've been through I'd be a fool to believe there'll
never be another lie
Thought we took the time to talk it over,
And we made plans about the future
You said for you there'd be no other
That we were meant to be together
