

If Not Now, When?

Incubus

I have waited
Dined on ashes
Swung from chandeliers and climbed Everest
And none of it's got me close to this

I've waited all my life
If not now, when will I?

We've been good
Even a blast, but
Don't you feel like something's missing here?
Don't you dare

I've waited all my life
If not now, when will I?
Stand up and face the bright light
Don't hide your eyes
It's time

No umbrellas
No sunglasses
Hailing Hallelujah everyday

I've waited all my life
If not now, when will I?
Stand up and face the bright light
Don't hide your eyes
It's time
