

Switchblade

Incubus

I keep getting attacked by,
The girl in the black hat
The girl in the black hat

I can't find any shade,
But I'll be sued as long as I got a switchblade

I keep getting the eye from,
The girl in the thigh highs
The girl in the thigh highs

Whose iris is of jade
And built to persuade
And they're swift like a switchblade

Switchblade
Switchblade

They're swift like a switchblade

Switchblade

Nobody wears it like you anymore,
Nobody wears it like you anymore

Light like a feather,
Bright like a dying star

Cut those together,
Girl that is what you are

Wild eyes forever,
Built to punish and persuade

I lied to get her
But all I got was a switchblade

A Switchblade

So just give me the facts,
Who's the girl in the black hat
The girl in the black hat

I can't find any shade,
But I'll be sued as long as I got a switchblade

I think I'm getting her eyes,
On all American thighs
Her American thighs.

She got her black hat,
And irises of jade
And I got a switchblade.

Switchblade

Yes, I've got a switchblade

Nobody wears it like you anymore,
Nobody wears it like you anymore

Light like a feather,
Bright like a dying star

Cut those together,
Girl that is what you are

Wild eyes forever,
Built to punish and persuade

I lied to get her
But all I got was a switchblade

A switchblade

Nobody wears it like you anymore,
Nobody wears it like you anymore

I keep getting attacked by,
The girl in the black hat
The girl in the black hat

I can't find any shade,
But I'll be sued as long as I got a switchblade

Switchblade

Light like a feather,
Bright like a dying star

Cut those together,
Girl that is what you are

Wild eyes forever,
Built to punish and persuade

I lied to get her
But all I got was a switchblade

Yes, I got a switchblade

Light like a feather,
Bright like a dying star

Cut those together,
Girl that is what you are

Wild eyes forever,
Built to punish and persuade

I lied to get her
But all I got was a switchblade
