

Fuck your memories
I don't believe in falling leaves
Fuck your sympathy
A set degree can kill a tree
Fuck your enemies
They try to be so nice to me
They dance around you

Falling down this endless name
The fingerprints on the wall will explain
Forgotten time left behind
Would love to be a part of this pain

Fuck your memories
Your thoughts inside shallow design
Fuck extremities
You try to hide expose your lie
Fuck your everything
They try to be so nice to me
They dance around you

Falling down this endless name
The fingerprints on the wall will explain
Forgotten time left behind
Would love to be a part of this pain

Is that okay with you
Deserver

Falling down this endless name
The fingerprints on the wall will explain
Forgotten time left behind
Would love to be a part of this pain
