

6th Avenue

India.Arie

Queens, Long Island and Brooklyn, too
From the Rockefeller Center to fifth avenue
Still, my favorite place in the empire state
Is in bed with you.

Central Park, The Village and the Brooklyn Bridges
The hottest shoes in the world, the fashion district
Still, my favorite place in the empire state
Is in bed with you.

I been around the world and now I understand
(There is nothing more)
Valuable than an honest friend
(There is nothing more)
Powerful than the warm hands of a man
I think you understand
Oh, I think you understand

A boat on the Hudson to Niagara Falls
From the Statue of Liberty to Carnegie Hall
Still, my favorite place in the empire state
Is in bed with you.

We can go to Radio City or to Madison Square Garden
Listen to jazz in Lincoln Center or visit the Apollo up in Harlem
But when it's all done and said, and I laid down my head
I wanna be next to you.

Cause my favorite place in the empire state
Is sixth avenue.
