I woke up this morning you were the first thing on my mind I don't know where it came from all I know is I need you in my life, yeah You make me feel like I can be a better woman If you just say you wanna take this friendship to another place

Can I walk with you through your life Can I lay with you as your wife Can I be your friend 'till the end Can I walk with you through your life

You've got me wondering if you know that I am wondering about you. This feeling is so strong that I can't imagine you're not feeling it too. You've known me long enough to trust that I want what's best for you. If you want to be happy then I am the one that you should give your heart to .

Can I walk with you through your life Can I lay with you as your wife Can I be your friend 'till the end Can I walk with you through your life

Now everyday ain't gonna be like the summers day. Being in love it really ain't like the movies screen. But I can tell you all the drama aside you And I can find what the worlds been looking for forever. Friendship and love together.
