

Yellow

India.Arie

Every time I hear you say hello
All I see is yellow
Like daisies in the meadow
And I just thought you should know

That every time you go away
My yellow turns to gray
What I'm trying to say is
It shouldn't be this way
And I need you to stay

Stay with me in the yellow
Stay with me in the yellow
Stay with me in the yellow

I need you to stay
Stay with me in the yellow
Stay with me in the yellow
Stay with me in the yellow

When you're away from me
I get green with envy
Wondering where you could be
And this ain't how it should be

But you know I'm a Georgia peach
I need your sunshine on me
You know how I can't be
I get blue and lonely
And I need you to stay

Yellow
Stay with me in the yellow
Stay with me in the yellow

Stay
Stay with me in the yellow
Stay with me in the yellow
Stay with me in the yellow

Stay with me in the
Baby, stay with me in the
Baby, stay with me in the
Stay with me in the yellow

There are times you make me see red
And then you shine your white
I get all pink inside
You know you're the love of my life

Together me and you are purple
Because we are so wild
And whenever we are this close
I never want to let go
I need you to stay

Stay with me in the

Stay with me in the
Baby, stay with me in the
Baby, stay with me in the
Stay with me in the yellow

Stay with me in the yellow
Stay with me in the yellow
Stay with me in the

Stay with me in the yellow
Yellow, yellow
Stay, yellow, yellow, yellow
