

# Hey Kind Friend

Indigo Girls

Hey kind friend  
Don't know when I'll see you again  
On a ferryboat bound to Victoria  
Laying down to hide from the wind

Big Dipper hanging over the city  
You know everything now is different for me  
And there ain't no use in explaining  
The scenery

I said, kind friend  
Help me forget where I been  
Hey kind friend  
Remember who I am

Well it was too late in Spokane  
So I caught a ride through the Cascade Range  
Saw the sun die in Olympia  
Running down on Capital Lake

Well I asked you for some relief  
And it's one true root that you bring to me  
And it's three a.m.  
And it's good company

I said, kind friend  
Help me forget where I been  
Hey kind friend  
Help me remember who I am  
I said, kind friend  
Don't know when I'll see you again  
It's okay friend  
It's okay friend

Well I'll meet you in New Orleans I'll see you around  
Don't know if it's worth coming down  
I'm calling from a gold rush town

I said, kind friend  
Help me forget where I been  
Hey kind friend  
Help me remember who I am  
I said, kind friend  
Don't know if I'll see you again  
It's okay friend  
I'm okay friend  
I said I'm okay friend
