

Here, where I am

Indios Bravos

I'm walking through the darkness I'm trying to understand
Why am I here and what for I'm simply who I am
I hope I'll find it out all, all along the way
Right now I'm wondering what's gonna bring another day

Sometimes I feel like there is no hope for me at all
But after while I am laughing loud because I love
So many things in my life I do appreciate
All of the moments I'm sure I won't ever forget

And all I know is I don't regret
That life has brought me here, where I am
And all I know is I don't regret
That life has brought me here, where I am
