

All I see is power
This is our hour
We came here to eliminate any coward
I believe in the voices of the individuals
They say we are the work of a miracle
We are the leaders of the free world
So just stand up
So just stand up
We are the new generation
They could never tell us we are wrong
They could never tell us we are wrong
We are the new generation
You cannot keep my shut
Never again will I only what you say
All the things that you preach are corrupt
Do you even listen to the words you say
Speak the truth and spread the word
We are the voices that need to be heard
We are the new generation
They could never tell us we are wrong
They could never tell us we are wrong
We are the new generation
