InDirections

Kings are nothing but skull and bones
You're just an obstacle in the way
You poison the truth
Spreading cancer in everyone's mind
Why can't everyone see behind a man in a suit
We all live under kings
Having the world on a string
As anger begins to rise over the land of the free
We are believers in the false gods with hidden codes
These kings are nothing but skull and bones
I just want to break free from this controlled society
I want to find my own identity
I want to watch you fall
I will feel whole again
When your kingdom goes up in smoke
As your kingdom falls
We all live under kings
Having the world on a string
As anger begins to rise over the land of the free
We are believers in the false gods with hidden codes
These kings are nothing but skull and bones
I just want to break free from this controlled society
I want to find my own identity
Bring me to the light
Bring me to your grace
I don't want to lose myself in this human race

(Don't give yourself to these unnatural men. Machine men, with machine minds and machine hearts. You are not machines, you are men.)

Tell me do you feel free
Expose the truth and the lies
We live under the flag
Expose the truth and the lies
We live under the flag
That consumes us all
That consumes us all
